To Jesar 5/26/75 I did not bother to make a copy of Lifton's letter for you. It appears to be Vinatage Lifton, a little butter and a shallow device. He dated it the day he spoke to you but wrote and mailed it a week or so later. By then Hoch should have received my letter. With his history when Lifton writes me a kind or friendly letter it is time for the guard to go up.
